

QUALITY POLICY

SFC Solutions is highly committed to establish key Quality objectives, that are communicated and understood at all level of the organization.

Our Quality Management System provides a sound basis, in order to:

- Meet Customers' needs and expectations, by offering tailored-made products and services
- Consolidate our culture based on education and continuous training
- Act proactively in continuous improvement in quality of products, manufacturing processes and services through reduction costs and risks, increasing productivity and supporting interested parties along the supply chain
- Maintain a partnership with a pool of strategic suppliers
- Comply with all statutory and regulatory requirements
- Use competences, awareness, and engagement of our employees, to enable us to achieve our strategic and operational objectives and to enhance the Customer satisfaction.
- Improve continuously our quality management system

FRANK RAUSS

Chief Operation Officer
